1  $13 - 9 = \square$

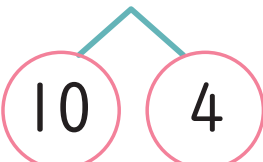

A number bond diagram for the number 13, showing it is composed of 10 and 3. The number 13 is at the top, with lines connecting it to two circles below containing the numbers 10 and 3.

2  $12 - 8 = \square$

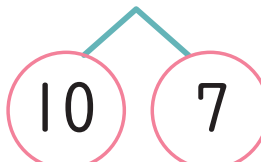

A number bond diagram for the number 12, showing it is composed of 10 and 2. The number 12 is at the top, with lines connecting it to two circles below containing the numbers 10 and 2.

3  $14 - 7 = \square$

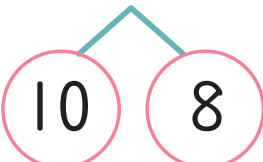

A number bond diagram for the number 14, showing it is composed of 10 and 4. The number 14 is at the top, with lines connecting it to two circles below containing the numbers 10 and 4.

4  $17 - 9 = \square$

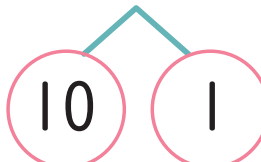

A number bond diagram for the number 17, showing it is composed of 10 and 7. The number 17 is at the top, with lines connecting it to two circles below containing the numbers 10 and 7.

5  $18 - 9 = \square$

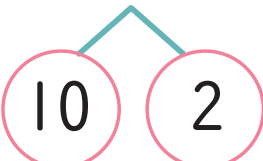

A number bond diagram for the number 18, showing it is composed of 10 and 8. The number 18 is at the top, with lines connecting it to two circles below containing the numbers 10 and 8.

6  $11 - 5 = \square$

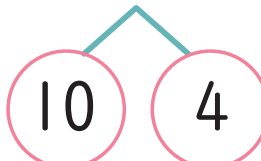

A number bond diagram for the number 11, showing it is composed of 10 and 1. The number 11 is at the top, with lines connecting it to two circles below containing the numbers 10 and 1.

7  $12 - 7 = \square$

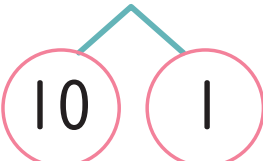

A number bond diagram for the number 12, showing it is composed of 10 and 2. The number 12 is at the top, with lines connecting it to two circles below containing the numbers 10 and 2.

8  $14 - 6 = \square$

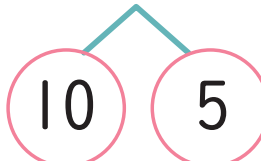

A number bond diagram for the number 14, showing it is composed of 10 and 4. The number 14 is at the top, with lines connecting it to two circles below containing the numbers 10 and 4.

9  $11 - 9 = \square$

A number bond diagram for the number 11, showing it is composed of 10 and 1. The number 11 is at the top, with lines connecting it to two circles below containing the numbers 10 and 1.

10  $15 - 8 = \square$

A number bond diagram for the number 15, showing it is composed of 10 and 5. The number 15 is at the top, with lines connecting it to two circles below containing the numbers 10 and 5.
