

計算しましょう。

$$\textcircled{1} \quad 6 \div 4 = \square \quad \overset{\text{あまり}}{\square}$$

$$\textcircled{2} \quad 3 \div 2 = \square \quad \overset{\text{あまり}}{\square}$$

$$\textcircled{3} \quad 8 \div 3 = \square \quad \square$$

$$\textcircled{4} \quad 9 \div 5 = \square \quad \square$$

$$\textcircled{5} \quad 14 \div 3 = \square \quad \square$$

$$\textcircled{6} \quad 11 \div 5 = \square \quad \square$$

$$\textcircled{7} \quad 17 \div 8 = \square \quad \square$$

$$\textcircled{8} \quad 24 \div 5 = \square \quad \square$$

$$\textcircled{9} \quad 29 \div 3 = \square \quad \square$$

$$\textcircled{10} \quad 27 \div 6 = \square \quad \square$$

$$\textcircled{11} \quad 34 \div 4 = \square \quad \square$$

$$\textcircled{12} \quad 31 \div 9 = \square \quad \square$$

$$\textcircled{13} \quad 38 \div 7 = \square \quad \square$$

$$\textcircled{14} \quad 44 \div 5 = \square \quad \square$$

$$\textcircled{15} \quad 49 \div 6 = \square \quad \square$$

$$\textcircled{16} \quad 59 \div 8 = \square \quad \square$$

$$\textcircled{17} \quad 67 \div 9 = \square \quad \square$$

$$\textcircled{18} \quad 80 \div 9 = \square \quad \square$$
