

計算を しましょう。

$$1 \quad 600 \text{ m} + 800 \text{ m} = \boxed{1} \text{ km } \boxed{400} \text{ m}$$

$$2 \quad 750 \text{ m} + 490 \text{ m} = \boxed{1} \text{ km } \boxed{240} \text{ m}$$

$$3 \quad 2300 \text{ m} + 1200 \text{ m} = \boxed{3} \text{ km } \boxed{500} \text{ m}$$

$$4 \quad 1 \text{ km } 300 \text{ m} + 200 \text{ m} = \boxed{1} \text{ km } \boxed{500} \text{ m}$$

$$5 \quad 2 \text{ km } 700 \text{ m} + 300 \text{ m} = \boxed{3} \text{ km}$$

$$6 \quad 3 \text{ km } 500 \text{ m} + 800 \text{ m} = \boxed{4} \text{ km } \boxed{300} \text{ m}$$

$$7 \quad 5 \text{ km } 600 \text{ m} + 900 \text{ m} = \boxed{6} \text{ km } \boxed{500} \text{ m}$$

$$8 \quad 4 \text{ km } 400 \text{ m} + 3 \text{ km } 300 \text{ m} = \boxed{7} \text{ km } \boxed{700} \text{ m}$$

$$9 \quad 5 \text{ km } 700 \text{ m} + 2 \text{ km } 700 \text{ m} = \boxed{8} \text{ km } \boxed{400} \text{ m}$$

$$10 \quad 1 \text{ km } 400 \text{ m} + 8 \text{ km } 800 \text{ m} = \boxed{10} \text{ km } \boxed{200} \text{ m}$$
