

1 次の図形の面積を求めましょう。

$$16 \times 10 \div 2 + 16 \times 4 \div 2 = 112$$

112cm²

$$8 \times 9 \div 2 + 12 \times 8 \div 2 = 84$$

84cm²

$$12 \times 10 \div 2 - 12 \times 6 \div 2 = 24$$

24cm²

$$(14 + 10) \times 15 \div 2 - 14 \times 5 \div 2 = 145$$

145cm²

2 次の図形の面積を求めましょう。

$$(6 + 8) \times 5 \div 2 + 8 \times 2 \div 2 = 35 + 8 = 43$$

43cm²

$$8 \times 8 \div 2 - 8 \times 3 \div 2 = 32 - 12 = 20$$

20cm²
