

と  に あてはまる かずを かきましょう。

1  $11 - 8 = 3$

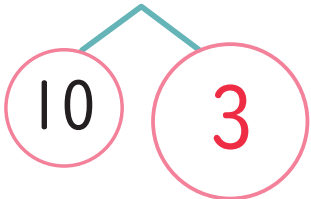

A number bond diagram for the number 11. It consists of a large circle at the top containing the number 11. Two lines branch out from the bottom of this circle to two smaller circles below it. The left circle contains the number 10, and the right circle contains the number 1.

2  $14 - 9 = 5$

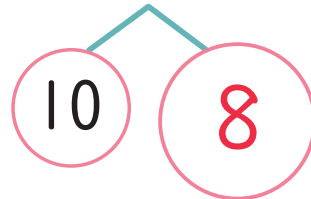

A number bond diagram for the number 14. It consists of a large circle at the top containing the number 14. Two lines branch out from the bottom of this circle to two smaller circles below it. The left circle contains the number 10, and the right circle contains the number 4.

3  $13 - 8 = 5$

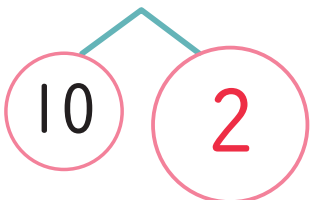

A number bond diagram for the number 13. It consists of a large circle at the top containing the number 13. Two lines branch out from the bottom of this circle to two smaller circles below it. The left circle contains the number 10, and the right circle contains the number 3.

4  $18 - 9 = 9$

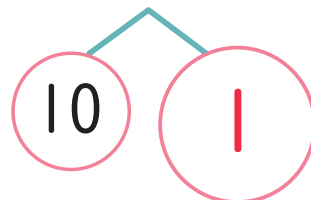

A number bond diagram for the number 18. It consists of a large circle at the top containing the number 18. Two lines branch out from the bottom of this circle to two smaller circles below it. The left circle contains the number 10, and the right circle contains the number 8.

5  $12 - 6 = 6$

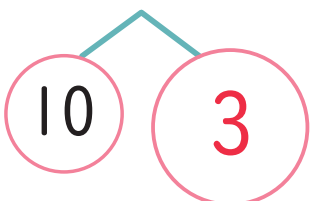

A number bond diagram for the number 12. It consists of a large circle at the top containing the number 12. Two lines branch out from the bottom of this circle to two smaller circles below it. The left circle contains the number 10, and the right circle contains the number 2.

6  $11 - 4 = 7$

A number bond diagram for the number 11. It consists of a large circle at the top containing the number 11. Two lines branch out from the bottom of this circle to two smaller circles below it. The left circle contains the number 10, and the right circle contains the number 1.

7  $13 - 5 = 8$

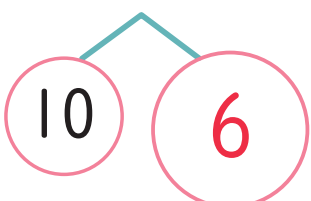

A number bond diagram for the number 13. It consists of a large circle at the top containing the number 13. Two lines branch out from the bottom of this circle to two smaller circles below it. The left circle contains the number 10, and the right circle contains the number 3.

8  $15 - 7 = 8$

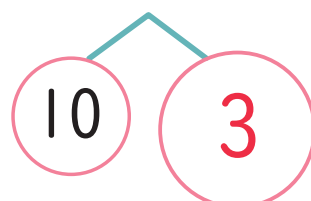

A number bond diagram for the number 15. It consists of a large circle at the top containing the number 15. Two lines branch out from the bottom of this circle to two smaller circles below it. The left circle contains the number 10, and the right circle contains the number 5.

9  $16 - 8 = 8$

A number bond diagram for the number 16. It consists of a large circle at the top containing the number 16. Two lines branch out from the bottom of this circle to two smaller circles below it. The left circle contains the number 10, and the right circle contains the number 6.

10  $13 - 7 = 6$

A number bond diagram for the number 13. It consists of a large circle at the top containing the number 13. Two lines branch out from the bottom of this circle to two smaller circles below it. The left circle contains the number 10, and the right circle contains the number 3.
