

1 計算しましょう。

$15000 - 4000 = 11000$

$10000 - 5000 = 5000$

$40000 - 5000 = 35000$

$18000 - 9000 = 9000$

$38000 - 6000 = 32000$

$75000 - 8000 = 67000$

$90000 - 70000 = 20000$

$120000 - 80000 = 40000$

$4800000 - 2000000 = 2800000$

$9000000 - 3500000 = 5500000$

2 計算しましょう。

$9\text{万} - 7\text{万} = 2\text{万}$

$15\text{万} - 8\text{万} = 7\text{万}$

$85\text{万} - 80\text{万} = 5\text{万}$

$93\text{万} - 15\text{万} = 78\text{万}$

$500\text{万} - 200\text{万} = 300\text{万}$

$900\text{万} - 420\text{万} = 480\text{万}$

$800\text{万} - 250\text{万} = 550\text{万}$

$2000\text{万} - 300\text{万} = 1700\text{万}$
